DETAILED ACTION

WITHDRAWN

The indicated previous office action of claims 1, 5-8, 14-15, 17, 20-23 and 29-34 is withdrawn in view of the mistakes by scanning papers of the wrong application number. The newly office action follows.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- II. Claims 29-34, drawn to an apparatus for forming a thin film, classified in class 361, subclass 704.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In the instant case, the method can be employed with different apparatus other than the apparatus recited in group II or vice versa.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because these inventions are distinct for the reasons given above and the search

required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.148(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.148(b) and by the fee required under 37 CFR 1.17(i)
